SALES & LEADERSHIP STRATEGIST | KEYNOTE SPEAKER | TEDX VOICE OF THE HEALTHY HUSTLE

A seasoned sales strategist, leadership coach and catalyst for real change, Nicky helps businesses move from chaotic hustle to calm, confident growth. With over 20 years' experience leading high-performing sales teams across the media and professional services landscape, she's seen the inside of businesses running at breakneck speed and knows exactly where the cracks start to show.

Today, she's on a mission to challenge the old-school hustle narrative and show leaders how to scale with impact, not exhaustion.

Nicky's no stranger to the dark side of hustle. A personal brush with burnout in 2012 catapulted her into a decade-long pursuit of what it means to grow sustainably - without sacrificing self, family or wellbeing. That lived experience powers every keynote, workshop and coaching session she delivers.

Her approach is grounded in her trademark Sales Activation Model (S.A.M.), a practical, proven framework that empowers business leaders to build sales systems that scale, elevate team performance, and reclaim their role as strategic visionaries ... not firefighting operators.

A TEDx speaker, author of Healthy Hustle, and co-host of the Smart Business Growth podcast, Nicky's voice is a rally cry for business leaders who are done with surface-level advice and ready for sustainable, smart success.
